

Who we are - technical and content-related reference to climate adaptation

INTEWA GmbH works in the field of sustainable water management (e.g. drinking water protection, flood protection, water storage systems) and specialises in the reuse of grey water and rainwater as well as rainwater management.

What we offer - solutions for climate adaptation and climate resilience

The company offers solutions for water self-sufficiency and drinking water protection. The systems developed can be used in sponge city projects (e.g. irrigation of greenery).
