---

### Networks and networking

Designated area at the exhibition grounds that provides a space for exchange, including the presentation of various networks and multipliers..

---

### Sessions

The sessions will be held in either German or English and will tie in with the topics of the stage programme:

- Climate risks and insurability,
- financing options for adaptation solutions,
- climate adaptation in regional transformation
- and successful models of public-private partnerships

Professional contributions, practical examples and interactive formats provide new impulses for companies, regions and solution providers.
